

Breakfast restaurants in Budapest

1. Introduction

I wanted draw some conclusion regarding to the restaurants in Budapest. I wanted to see if there are more restaurants with breakfast option in Pest or in Buda. This could be important if you are about to move into Budapest and usually like to start a day with a great breakfast what you get from a restaurant.

With this small research I would like to help for those who want to do so, and for those, who just want to eat a good breakfast but do not know where can they do that.

A lot of companies who wants to open a new restaurant with this kind of service can gather useful information from this.

2. Data

As a data I used Foursquare dataset regarding to restaurants geolocation, name and so much other data. I used map of folium library to be able to visualize the result of my research. I tried to narrow down the results with a smaller radius. I used two particular point of the two part of Budapest as centre of each part which were determined by myself.

3. Data Analysis

I searched for restaurants at both side of the capital of Hungary.

I found only three in Buda which were the following:

```
Out[14]: 0    Bellevue Bed & Breakfast  
         1          Déryné Bistró  
         2          Icon The Restaurant
```

But in Pest I found twenty-two which were the following:

```

Out[15]: 0          Breakfast Golden Park Hotel
        1          B033 Breakfast
        2          star city hotel - breakfast spot
        3          Budapest Bed and Breakfast
        4          Breakfast Cafe
        5          Breakfast at Casati
        6          Breakfast Room
        7          Breakfast Corinthia Hotel Budapest

       15          Hotel President Breakfast Room
       16          hotel metro breakfast
       17          The Three Corners Art Hotel Breakfast Area
       18          QuQ Breakfast Area
       19          leonardo hotel breakfast
       20          Hotel Ibis Budapest Centrum
       21          Leonardo Hotel

```

As it seems, there are much more opportunity in Pest than in Buda regarding to breakfast.

As a next step, I have put those onto a map with the centres of both sides:

4. Conclusion

On one hand as it seems, there are much more opportunities in Pest as I was mentioned earlier.

But on other hand, this information shows where it is appropriate to found a restaurant with a breakfast option. It is too crowded in terms of restaurants with this kind of service in Pest.
